

BLA First Ever Annual Children's
(and Grandchildren's)
"Meeting"
3:30 – 6:00 pm
Center for All Seasons

New this year is a special children's program/project concurrent with the BLA Annual meeting. It is designed to teach our next generation of lake stewards how our lakes work and how to "preserve and protect." Bring your children and grandchildren. We are designing the program for ages 4 through 12. **However we would very much appreciate the assistance and leadership of young adults if they wish to join us (ages 13 – 18).**

Our goal, if we can do it, is to create a video/You tube for the BLA web site (and You Tube) that covers:

**"When I am a grandparent, here is how I would like the Lakes to be
For me, my children and my grandchildren
When I bring them home –
To the Belgrades –
Being good stewards, preserving and protecting the enduring legacy."**

We will teach the children but at the same time use the opportunity to capture their sense and desire to ensure the legacy is there for their grandchildren 100 years from now!

Any parents or young adults who can help us create 'Man on the street' type, snap chat videos would be eagerly appreciated. If you can help us with videography, or have young adults who can help – please call me – we need video experience and capability! Andrew Cook 207-397-5332 or email me at dr.Andrew.g.cook@gmail.com

If you have children who would like to join us in this experimental team educational and public relations adventure, please rsvp to me at dr.Andrew.g.cook@gmail.com as to how many children you may bring and their ages.

Thanks again for everyone's interest in being good Stewards of our lakes and region for the long run. We all look forward to what the children will learn and more importantly what they will say and the video we may produce!
